

For Immediate Release

Digital Watchdog® Announces SureView Systems Integration DW Spectrum® IPVMS is now fully integrated with SureView™ Immix® CC and CS platforms.

DW Spectrum® IPVMS

Cerritos, CA (December 15, 2017) – Digital Watchdog (DW™), the industry leader in digital recorders, surveillance cameras and related management software, announces a new integration with SureView's Immix® CC and CS software solutions. Combining the ability to receive events from intrusion and fire alarm systems with video verification; Immix delivers a powerful and unique product to manage and respond to security events. This new integration will allow monitoring stations to receive alarm notifications, view live video while viewing recorded video of the alarm event, operate PTZ cameras, go to preset positions and view multiple nearby cameras from any DW Spectrum® powered system using the Immix® software.

DW Spectrum® IPVMS is an easy cutting-edge approach to surveillance, addressing the primary limitations of managing enterprise-level HD video while offering the lowest total cost of deployment and ownership on the market. DW Spectrum® IPVMS is a perfect solution for applications that require ease, speed, efficiency and unprecedented image quality. The DW Spectrum® IPVMS is

accessed with the freely distributed DW Spectrum® client software (Windows/Linux/Mac), the DW Spectrum® IPVMS can be accessed with the web client from all leading web browsers (Google Chrome, Firefox, Internet Explorer, Safari and Opera), as well as the free DW Spectrum® mobile app for iOS and Android devices. The VMS software is included with pre-configured DW Blackjack® NVR servers or it can be installed on third-party Windows® or Ubuntu® Linux-based systems.

“Digital Watchdog is very excited to be working with SureView Systems to enhance the DW Spectrum solution with video verification powered by Immix” said Patrick Kelly Director of IP Video Solutions for Digital Watchdog. “Adding SureView to the DW Spectrum ecosystem is vital to several key partners offering video verification and remote management services.”
