Complete Scalable Video Management

DW Spectrum® IPVMS v3.1 – Built for Users™

Cerritos, CA (March 28, 2018) – Digital Watchdog® (DW™), the industry leader in digital recorders, surveillance cameras and related management software, is pleased to announce the release of the DW Spectrum® IPVMS integration with Software House C•CURE 9000 Security and Event Management System.

With DW Spectrum® and C•CURE 9000 security and event management system, users can correlate high definition video with access control event information in one powerful interface.

Digital Watchdog Press Release

The integrated solution enables users to view, search and play back DW Spectrum® managed video directly from the C•CURE 9000 interface. Additional functionality allows PTZ camera control and export of recorded video from the C•CURE client. The C•CURE plugin also provides users the ability to trigger Generic Events in DW Spectrum® from a C•CURE event actions. Users can automate DW Spectrum® to Bookmark video and force an alarm layout pop-up of video to specific users based on C•CURE event actions.

“Using DW Spectrum’s openness and flexibility, the C•CURE plugin allows security directors to integrate security and event management seamlessly with high definition video managed within DW Spectrum®,” said Patrick Kelly, Director of IP Video Solutions — North America, Digital Watchdog® “Adding Software House to the DW Spectrum® ecosystem is vital to several key partners with existing infrastructure and personnel investments. They realize the value DW Spectrum® offers in the total cost of ownership as they migrate their video infrastructure to the high-quality imaging, resolution and video processing functions offered with DW® MEGApix® cameras.”
