

MEMORANDUM

Date: 19 March 2020
From: Digital Watchdog Corporate Office
To: Digital Watchdog Customers
Re: Operations During the Novel Coronavirus Outbreak

Security is critical infrastructure. Digital Watchdog is open for business.

To date, Digital Watchdog has been very fortunate to keep both our Cerritos, California and Tampa, Florida facilities running as usual while monitoring the federal and local government directives regarding personal activity during the current health crisis.

While Digital Watchdog's corporate headquarters are in California, we have mirrored operations on both coasts, including customer service, technical support, provisioning, RMA and warehouse personnel and services. Our facilities are fully staffed and operational. Our sales professionals are prepared to conduct meetings and product demonstrations remotely. They are also ready to make onsite visits as requested and as government directives allow.

The Digital Watchdog products and support services you see promoted at www.digital-watchdog.com are available now, and for the foreseeable future. Our distribution partners are also open and ready to fill orders.

If you have any questions about Digital Watchdog products and services, please contact one of our sales professionals.

Sincerely,

Mark Espenschied
Director of Marketing
Digital Watchdog Complete Surveillance Solutions
