**Compressor™**  
Analog to IP Video Encoder

DW-ENHD16

## The easiest transition from analog video to IP.

### Save time with no rewiring cost.

With a Compressor encoder you gain many of the benefits of IP technology, while continuing to use your analog equipment and coaxial cabling.

### IP benefits for analog systems.

- Digitizes analog camera signals.
- Add an NVR to your analog system for centralized recording and storage, which is more flexible, efficient, and costs less to maintain.
- View and record video through DW Spectrum® IPVMS.

Manage your system from Anywhere, Anytime.

### 4 to 1 Savings.

Use the DW Spectrum Analog Encoder License, (DW-SPCP16LSC016) to record 16 channels for the cost of 4 IP camera recording licenses.

MUST be a DW CPP member to qualify. DW CPP tiered pricing discounts are applicable. Promotions may not be combined. No substitutions. Purchases from unauthorized resellers do not qualify.
