

Digital Watchdog Press Release

FOR IMMEDIATE RELEASE

Digital Watchdog® DW Mobile™ and DW Mobile Pro™ Apps are Now More Secure and More Integrated

The latest updates support iOS Touch ID Security Verification and Audio Streaming from VMAX® IP Plus™ NVRs.

DW Mobile™ and DW Mobile Pro™ Applications

Cerritos, CA (June 16, 2017) – [Digital Watchdog®](#) (DW®), the industry leader in digital recorders, surveillance cameras and related management software, released the latest update to its DW Mobile™ and DW Mobile Pro™ applications. Both apps now support Touch ID login and will receive camera audio from any VMAX® IP Plus™ NVR. The update rolls out automatically to all supported devices that already have the apps installed.

Digital Watchdog® strives to deliver comprehensive video security with an intuitive and easy user-friendly experience. Video surveillance solutions have access to sensitive data and as such should always be protected with a username and password. With Apple's recent updates and improvements to their Touch ID identification system, iOS apps now seamlessly use your fingerprint as a password and access verification. Following the initial setup and confirmation, you can access the app, log in to sites and monitor your systems by simply pressing your finger

to the device's home button. The Touch ID sensor will read your fingerprint and automatically unlock your app and connections.

In addition to the new Touch ID security, the latest app updates support incoming audio from cameras being managed by VMAX® IP Plus™ NVRs. Any IP camera assigned to the VMAX® IP Plus™ with video and audio capabilities will be available in the mobile apps. By tapping on the MENU button in the app interface, audio in can be enabled for a selected channel. The incoming audio streaming, combined with the VMAX® IP Plus' high-resolution real-time video streaming capabilities, allows you to monitor your locations instantaneously on an iPhone or iPad, hearing as well as seeing events as they develop.

“Digital Watchdog® is driven by the commitment to make high definition video surveillance easy to manage and safe to access,” said Mark Espenschied, Director of Marketing, Digital Watchdog®. “The DW Mobile apps provide a convenient unified mobile management solution for all your video surveillance systems in one interface.”

The updates roll out automatically to supported devices with the app already installed. To download the apps, go to the Apple® iOS App Store and search ‘DW Mobile’ in the search bar.

ABOUT DIGITAL WATCHDOG

Digital Watchdog® (DW®) empowers our customers as the industry-leading single source of value-driven complete solutions for all video surveillance applications (HD over Coax™ / hybrid / IP Enterprise), focusing on ease of use and ROI.
