

Digital Watchdog® Brings High Definition to Analog Systems in a Simple Upgrade

VMAX AHD CORE™

Cerritos, CA August 27, 2015 – Digital Watchdog® announces the release of our brand new VMAX AHD CORE™ line of true HD 1080P Analog High Definition (AHD) digital video recorders. The VMAX AHD CORE™ offers a user-friendly 2.1MP high definition solution engineered to utilize an existing analog installation, increasing ROI and reducing installation time and complexity for an HD solution in minutes.

The VMAX AHD CORE™ is a digital video recorder that offers real-time HD monitoring and recording at 1080p (1920X1080). The VMAX AHD CORE uses Analog High Definition (AHD) signals which allow customers to use existing or new coaxial cable infrastructure while providing an unparalleled image quality up to 1475ft (450m) using RG59 cables. AHD technology leverages the robustness of analog signal infrastructure for a seamless upgrade to the details and clarity of 1080p high definition resolution. The VMAX AHD also offers free DDNS, Event Push notifications via mobile app, 1 Audio Input and Output, 4 Sensor Inputs and 1 Alarm Output, all controlled from the popular VMAX™ user interface. The VMAX AHD CORE™ is available in 4, 8 and 16 channel configurations, is available with up to 6 Terabytes of internal storage and is backed by Digital Watchdog's unbeatable 5 year limited warranty.

Additional DVR features include:

- › Full HD (1080P) Output for Live & Playback Display
- › Pathfinder™ Auto Port Forwarding
- › Analog High Definition (AHD) Technology Transmitting HD 1080p video over existing coax installation
