DW[®] Announces DW Spectrum[®] IPVMS Integration with ICT[®]

DW Spectrum[®] IPVMS v3.2 – Built for Users[™]

Cerritos, CA (October 15, 2018) – DW[®], the industry leader in digital recorders, surveillance cameras and related management software, is pleased to announce the seamless integration of DW Spectrum[®] IPVMS with ICT's ProtegeGX access control.

Built on DW Spectrum's open architecture the ProtegeGX integration creates a full featured and cohesive solution. This seamless integration enables ProtegeGX's package of enterprise level integrated access control, intrusion detection, and building automation solutions to be combined with video managed by DW Spectrum[®] IPVMS.

Key benefits of the integration include the ability to:

- View live, historic and archived camera footage from DW Spectrum[®] in ProtegeGX.
- Embed live camera feeds from DW Spectrum[®] directly into a status page in ProtegeGX.
- Create links between doors, inputs, areas, and DW Spectrum[®] cameras in ProtegeGX.
- Bring up a live feed from DW Spectrum[®] when a specified event occurs in ProtegeGX.
- Have motion detection and camera input events appear in the ProtegeGX event log.
- Use PTZ (Pan, Tilt, Zoom) controls in ProtegeGX for integrated DW Spectrum[®] cameras.
- Send PTZ commands to DW Spectrum[®] in response to an event in ProtegeGX.

“We are excited to add ICT to the growing list of DW Spectrum integrations” says Patrick Kelly, Director of IP Video Solutions Director of IP “ICT’s shared values of ease of operation, simplicity to integrate and effortless ability to extend, provides DW Spectrum installing channel partners another fantastic option for enhanced situational awareness. ”

ABOUT DW®

DW® empowers our customers as the industry-leading single source of value-driven complete solutions for all video surveillance applications (HD over Coax™ / hybrid / IP enterprise), focusing on ease of use and ROI. DW™ products offer technologically-advanced features including multi-sensor HD cameras at real-time 30fps, Star-Light™ super low light technology, WDR, Smart DNR™ and Smart IR™. Complete IP megapixel surveillance solutions include single- and multi-sensor MEGApix® cameras and edge recording systems, Blackjack® NVRs and DW Spectrum® IPVMS for server, mobile and on-camera control. Complete HD over Coax™ surveillance solutions include single- and multi-sensor STAR-LIGHT™ HD over Coax™ cameras, VMAX® Universal HD over Coax® DVRs and mobile management applications.

ABOUT ICT®

ICT is a world leading manufacturer of unified and intelligent electronic access control and security solutions that enable organizations to protect their people, operations and information. Based in Auckland, New Zealand, we have a global presence and an international reach. We have offices located in Denver (Colorado USA), Amersham (United Kingdom), and Sydney (Australia) to provide full local sales, support and service to our clients and partners around the world. A network of market leading security professionals, and a rigorous training and quality control program, ensures first class sales, service, and support. Our partners play an integral role in our sales and support network, providing the expertise and experience to help you plan, deploy, integrate and manage an ICT solution.
