

For Immediate Release

DW® Introduces Blackjack® Mini™ Slim Case Server

Make big things happen — record locally, monitor centrally and manage remotely™ with DW Spectrum IPVMS onboard.

New Blackjack® Mini™ Server

Cerritos, CA (February 1, 2019) – [DW® Complete Surveillance Solutions](#), the industry leader in digital recorders, surveillance cameras and related management software, announces the release of our new Blackjack® Mini™ server powered by DW Spectrum® IPVMS. The new Linux-based server offers users the power and reliability they have come to expect from Blackjack® servers in a simple and compact device designed for remote management.

“One of the great things about the flexibility of DW Spectrum® is the ability to manage your system from anywhere via the client software, DW® Cloud™ web interface or the DW Spectrum Mobile™ app,” said Mark Espenschied, Director of Marketing, Digital Watchdog®. “The new Blackjack® Mini™ takes full advantage of that flexibility by delivering a pure server and recorder experience designed to be managed remotely.”

The Blackjack® Mini™ makes big things happen! The server allows you to record locally, function as a centralized monitoring system via DW Spectrum® IPVMS server software and manage remotely, from anywhere, any time. The server can record and manage single-sensor IP cameras of any resolution, with maximum 60 Mbps throughput (equivalent to 12 2.1MP/1080p cameras at 30fps).

Manage remotely with DW Spectrum® Client or the DW Spectrum Mobile® app. The Blackjack® Mini™ is an ideal solution for any small-scale application or for remote locations with a small number of cameras are but no need for local monitoring. The server has a 5 years limited warranty, is ONVIF conformant and is available with 4-20TB HDD.

Features include:

- Supports ONVIF conformant IP cameras

Digital Watchdog Press Release

- Storage options 2-20TB internal storage
- Data redundancy RAID1 (DW-BJMINIXTR models only)
