

For Immediate Release

DW[®] Offers Rack-Mountable NAS Solutions

The new Blackjack[®] NAS 8- and 16-Bay models support up to 600Mbps and complement any Blackjack[®] E-Rack server.

New Blackjack[®] E-Rack NAS Models

Cerritos, CA (July 2, 2018) – [DW[®]](#), the industry leader in digital recorders, surveillance cameras and related management software, announces the launch of 8- and 16-bay rack mountable network attached storage (NAS) solutions. The DW-BJ8NAS and DW-BJ16NAS models, the latest additions to the new Blackjack[®] NAS series, are additional storage solutions for any Blackjack[®] NVR. The NAS devices provide additional video storage for more recording days and more cameras to an existing system, while being controlled from a unified DW Spectrum[®] IPVMS interface.

“DW[®] Blackjack[®] servers are extremely popular, offering flexible solutions to match the needs of any application, all powered by our versatile and easy-to-use video management software, DW Spectrum[®],” said Mark Espenschied, Director of Marketing, DW[®]. “The addition of network attached storage devices to the product family makes it easy to add additional storage to a system without the need or expense to upgrade the server.”

Blackjack[®] NAS[™] rack mount models are high-reliability network attached storage devices for Blackjack[®] E-Rack[™] Servers. The 8- and 16-bay rack mount models act as primary or backup recording for existing DW Spectrum[®] IPVMS systems. Models offer 80TB and 160TB storage with RAID5. Additional hardware features include dual or quad network ports, hot swappable HDDs and dual power supply for the 16-bay model.

Blackjack® NAS™ devices integrate easily into a Blackjack® E-Rack™ system with a total of up to 600Mbps throughput, allowing you to record and backup more days of video without the need for additional video recorders. The Blackjack® NAS™ integrates seamlessly into a DW Spectrum® IPVMS system, allowing for an instant search and data management and is backed by DW's unbeatable 5 year limited warranty.

Features include:

- Centralize your file storage and backup with excellent performance
- Expands recording capacity of any Blackjack® E-Rack NVR system
- Add and manage recording for NAS station directly from the DW Spectrum® IPVMS client software
- Seamless search via the DW Spectrum® IPVMS client, including smart motion search, spyglass and calendar search options.
- Add a NAS station to a Blackjack® E-Rack server with up to 128 cameras to quickly expand local storage and backup capacity at up to 600Mbps throughput.
- Storage options 80TB, 160TB (16-bay models) internal storage
- RAID 5
- Proprietary Linux® embedded OS
- Redundant power supply (16-bay models)
- Hot swappable drives
- Rail kit included
- 5 year limited warranty
