said Mark Espenschied, Director of Marketing, Digital Watchdog®. "Anyone that is considering an IPVMS would do well to compare DW Spectrum's features and licensing structure."

DW Spectrum™ IPVMS is an elegantly easy cutting-edge approach to HD surveillance, addressing the primary obstacles and limitations of managing enterprise-level HD video while offering the lowest total cost of deployment and ownership of any solution on the market. The software offers advanced search features to help you quickly find incidents or instantly review an exact date and time. The software is cross-platform, installs quickly and provides instant network mapping and discovery to start viewing your entire security system in minutes. DW Spectrum™ IPVMS is a perfect solution for any application that requires ease, speed, efficiency, and unprecedented image quality.

NEW FEATURE HIGHLIGHTS
› New Rapid Review Feature (export and review 1 day of video in 1 minute)
› New Device Support for Digital Watchdog, FLIR, Pelco, Sony, ACTi and Arecont Vision cameras.
› 2-way audio integrated for Axis cameras and I/O device (requires firmware 5.x)
› Audio-as-an-Action now available for Axis devices (requires firmware 5.x)
› HTTP Request-as an-Action
› IPv6 Support
› Improved LDAP Integration and Email Notification Options
› Expansion of Server API Documentation
