Re: Credit Card Authorization Form

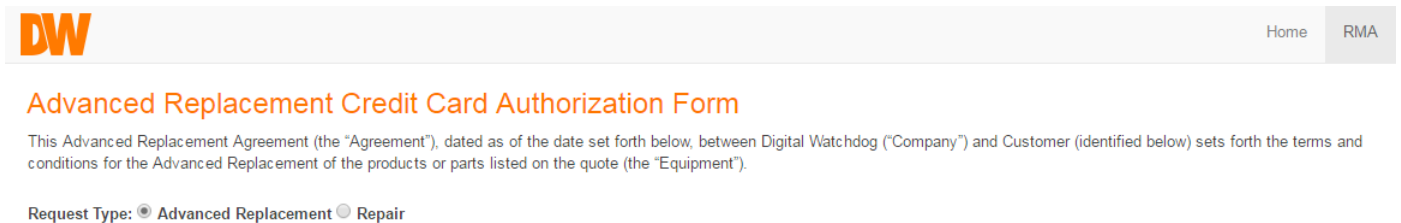

## Credit Card Authorization Form

We would like to announce the launch of our new credit card website, which now is accepting payments for repairs and advanced replacements online. The new Credit Card Authorization form can be found at: <https://digital-watchdog.com/rma-cc/>

After receiving a quote, simply fill out the contact information, billing information, and shipping information. Please be sure to include the RMA number so we can reference the work order to the case.

If the company that is being represented is tax exempt, please remember to fill out the tax exempt form to avoid unnecessary charges.

We hope that this new feature will make your experience with us a more pleasant one.
