Re: MEGApix® PANO DWC-PVF9M2TIR
firmware update

MEGApix® PANO DWC-PVF9M2TIR firmware update

New firmware version: 1.0.1.008b
Previous firmware version: 1.0.1.007b
Release date: 11/12/2018

New firmware notes:

Camera Setup options have been modified to improve user experience and optimize camera setup:

1. Camera Setup > AE > WDR > Strength
 - The default value has been modified from 512 to 256. This will improve the camera's image around higher frequency.
2. Camera Setup > AE > Exposure Time > Manual
 - This function has been removed. It should not be used.
3. Camera Setup > Special > Noise Reduction > Enable
 - This function has been removed. It should not be used.
4. Camera Setup > Special > Sharpness > Mode
 - Specified levels has been modified to the following options: off, low, middle, high. The default value is high.
