Re: MEGApix® PANO DWC-PVX16W  
firmware update

## MEGApix® FLEX DWC-PVX16W firmware update

**New firmware version:** S2.1.3\_20190111  
**Current firmware version:** S2.1.3\_20180409  
**Release date:** 01/29/2019

### New firmware notes:

Added the firmware version information for all the slave sensors in the system information.

The camera appears on the DW Spectrum® IPVMS device tree as an encoder, with four separate sub-streams, one per each sensor. The new firmware will list the current camera's firmware under each of the sensor. The camera will still require only one recording license for all four streams.
