 Re: DW IP Finder™ firmware update

## DW IP Finder™ firmware update

**New firmware version:** 4.3.17  
**Previous firmware version:** 4.3.15  
**Release date:** 06/21/2018

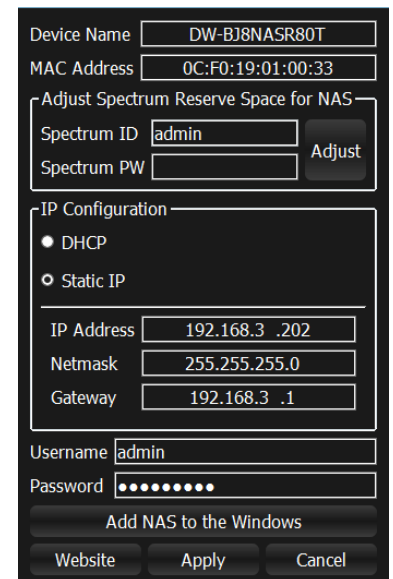

### New firmware notes:

- Added bulk IP assign function. Users can assign IP address for group of IP cameras ([click here for instructions](#)).

### 2. Blackjack® NAS rack-mount (DW-BJNAS) configuration

- Change IP Address.
- Add to Windows automatically and create volumes (not supported on Linux).\*
- Adjust Spectrum reserve size to 100GB.

\* Must perform from the server running Spectrum Media Server.

## New firmware notes (continued):

3. Added support for VMAX<sup>®</sup> models
  - VMAX<sup>®</sup> A1<sup>™</sup> / VMAX<sup>®</sup> IP Plus<sup>™</sup> / Compressor<sup>™</sup> DW-CPUHD16 can be discovered by the IP Finder<sup>™</sup>.
  - Click on IP Conf or double click on the device information to open the device's web page.
  - IP address cannot be changed from IP Finder<sup>™</sup>.
4. Disabled automatic rescan when Apply is clicked
  - Will scan automatically when opened.
  - Will scan automatically when the Bulk IP assignment were done.
5. Messages on thumbnail if the image can't be displayed
  - Login Failed: camera's admin password is changed.
  - Error: connection issue with the camera (different subnet, connection timed out, etc).
  - Not Supported: protocol not supported (older models).
6. Added PING function. The new feature will allow users to ping the device infinitely until stopped by user.
7. Modified display filter

- DW<sup>®</sup> IP Cameras: display DW<sup>®</sup> cameras only from the discovered devices.
- VMAX<sup>®</sup> devices: display VMAX<sup>®</sup> A1<sup>™</sup>, VMAX<sup>®</sup> IP Plus<sup>™</sup> and Compressor<sup>™</sup> DW-CPUHD16 only from the discovered devices.
- Blackjack<sup>®</sup> NAS (DW-BJNAS): display BJNAS and BJNASR only from the discovered devices.
- Blackjack<sup>®</sup> Mini (DW-BJMINI): display BJMINI only from the discovered devices.
- Other ONVIF devices: display devices discovered using ONVIF protocol from the discovered devices (most DW<sup>®</sup> cameras are applicable).
