Re: VMAX® IP Plus™ firmware update

VMAX® IP Plus™ NVR firmware update

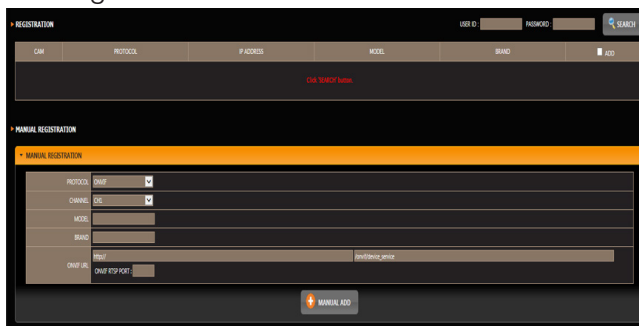

Applicable models: 1st and 2nd generation VMAX® IP Plus™ NVRs
New firmware version: 1.2.9.1
Previous firmware version: 1.2.7.2
Release date: 04/18/2018

How to tell what generation NVR you have:

- 1st Generation NVRs will have the current firmware files starting with: hn-62xx, hn-63xx
- 2nd Generation NVRs will have the current firmware files starting with: hn-65xx, hn-66xx

New firmware notes:

1. Increased the ,aximum allowed channels.
 - Supports 64 channels based on the sub stream.
 - Main stream equals two times of the sub stream.
2. Added manual camera registration function on the web client.
 - If users want to connect to an IP camera in a different network, cameras can be added manually using the manual registration function on the web client.

[RECORD] – [REGISTRATION]

1. Input camera's ID & Password
2. Select protocol of the camera. Registration is available with one of the following.
 - RTSP URL or ONVIF URL
3. Select channel number to register and click manual add.
