Re: VMAX[®] IP Plus[™] firmware update

VMAX[®] IP Plus[™] NVR firmware update

Applicable models: 1st and 2nd generation VMAX[®] IP Plus[™] NVRs
New firmware version: 1.4.1.1
Previous firmware version: 1.3.7.0
Release date: 10/26/2020

How to tell what generation NVR you have:

- 1st Generation VMAX[®] IP Plus[™] NVRs have firmware files starting with: hn-62xx, hn-63xx.
- 2nd Generation VMAX[®] IP Plus[™] NVRs have firmware files starting with: hn-65xx, hn-66xx.

New firmware notes:

1. System password policy change.
 - When logging into the system for the first time, or after resetting the system to default settings, the admin password must be set. The new password must be at least 8 characters long with at least 4 combination of uppercase, lowercase letter, number and special characters.
2. DW IP camera password policy changed.
 - Generate DW IP's Admin password automatically based on new policy
[!+A+{NVR Mac Address}]
3. Android Push notification fix
 - Expired Android push certification is updated – fix push notification issue on android.
4. Support new IP camera.
 - Support for the new DWC-MVT9WixT, DWC-MBT9WixT, DWC-MT9WixT IP cameras.
