

For Immediate Release

Digital Watchdog[®] Fits DW Spectrum[®] IPVMS into High-Performance Blackjack[®] MX[™] Mini Desktop Server

The server is a perfect blend of power, usability, and ROI for small businesses.

DW[®] Blackjack MX[™] Mini Server.

Cerritos, CA (June 6, 2024) – [Digital Watchdog[®] \(DW\)](#), the industry leader in digital recorders, surveillance cameras, perimeter protection devices, system peripherals and related management software, is excited to announce the launch of the new Blackjack[®] MX[™] Mini Desktop Server. This compact server is an easy-to-deploy solution designed to help small businesses maximize their investment in physical security while enjoying the benefits of the market's leading VMS.

The Blackjack MX Mini server is NDAA/TAA-compliant and provides a reliable, economical solution for monitoring and recording multiple IP cameras of any resolution at up to 120Mbps throughput. These servers are ideal for single-location applications, but can also be integrated into a larger corporate remote management solution as part of the DW Spectrum[®] IPVMS platform. The servers come equipped with 2TB of recording storage, are preloaded with DW Spectrum IPVMS, can be managed from anywhere via DW Cloud, and include a 5-year limited warranty.

"Sometimes, end users are looking for big iron to power their surveillance solutions. And sometimes, a smaller footprint is desired. DW provides dynamic solutions for any application,

all powered by easy-to-use DW Spectrum IPVMS," said Mark Espenschied, Director of Marketing, DW. "This new mini Blackjack was built in response to customer demand and delivers a surprisingly large suite of features in a very small package."

Product Features:

- Supports all ONVIF conformant IP cameras
- 2TB internal storage
- Record and manage single- and multi-sensor IP cameras of any resolution up to 120Mbps throughput.

NOTE: Stitched images require a significant amount of system resources and can impact performance.

- Local monitoring ports for local setup and configuration.
- Dual network ports
- Windows 10® OS
- OS on separate SSD reduces the risk of data corruption.
- Hosting DW Spectrum® for setup, configuration, and recording.
- One-time recording license charge, fully transferable between cameras and encoders.
- No annual maintenance fees.
- Simple enterprise scalability and auto device discovery.
- Dual stream recording for optimal bandwidth usage.
- VESA mount is included to mount the server inconspicuously behind a monitor.
- A USB mouse and keyboard are included for local setup and control.
- Designed, assembled and tested in the U.S.A.
- NDAA/TAA-compliant for federal and government projects.
- 5 Years limited warranty
