FOR IMMEDIATE RELEASE

Digital Watchdog® DW Spectrum™ IP VMS Now Integrated with Paxton Access Net2

DW Spectrum™ IP VMS v2.3.
More than ever... Built for Users

Cerritos, CA (July 29, 2015) – Digital Watchdog (DW™), the industry leader in digital recorders, surveillance cameras and related management software, is proud to announce the integration of Paxton Access Net2 access control with our DW Spectrum™ IP VMS v2.3.1

Net2 is a user-friendly and flexible networked access control system, designed to make the management of any building incredibly simple. This integration provides enhanced access control and video management on a single platform, allowing the user to view events footage from within Net2.

The DW Spectrum™ Paxton Plug-in embeds DW Spectrum's elegant high definition video user interface within the Net2 interface. Installing in seconds and configurable within minutes, users are able to link any number of cameras with doors and alarm points. The embedded client delivers DW Spectrum robust smart search, flexible timeline, zoom windows, PTZ control and fisheye camera dewarping with ease.

"We are excited to partner with Paxton Access. DW Spectrum's open architecture is accelerating the development of our technology partner program" said Patrick Kelly Director of IP at Digital Watchdog. "Offering customers integration with the best products available in the market provides them the freedom to choose the solution that best fits their needs."

The DW Spectrum™ Paxton Plug-in is available now, via the DW Spectrum Technology partner page at www.digital-watchdog.com
