Digital Watchdog® Expands the Analog High Definition (AHD) Camera Line 1080p Video Over Existing Coax for Any Application

STAR-LIGHT AHD™ Cameras

[Digital Watchdog](#) (DW™), the industry leader in digital recorders, surveillance cameras and related management software, announces the expansion of our AHD (Analog High Definition) camera line. The new STAR-LIGHT AHD™ Cameras offer 1080p images and UTC for full OSD control using existing coaxial cables. Digital Watchdog AHD user-friendly high definition solutions have been engineered to utilize an existing analog system, increasing ROI and reducing installation time and complexity to provide an HD surveillance solution in minutes.

Groundbreaking STAR-LIGHT AHD™ High Definition Cameras use existing coaxial cables to transmit crystal-clear detailed 1080p images. The cameras offer 2.1MP resolution along with powerful features such as Varifocal and Auto Focus P-Iris Lens options, Wide Dynamic Range (WDR), True Day/Night with Mechanical IR Cut Filter and Smart IR™. The STAR-LIGHT AHD cameras are engineered to work with VMAX AHD DVRs, offering an easy upgrade from analog to high definition surveillance using existing or new infrastructure for a cost-effective, high resolution surveillance solution.
