Re: Blackjack® NAS desktop models supported devices

## Blackjack® NAS desktop models supported devices

**Affecting model numbers: DW-BJNASxT, DW-BJNASxTR**

The Blackjack® NAS DW-BJNASxT and DW-BJNASxTR desktop models will support the following devices ONLY. Using the Blackjack® NAS desktop models with any other products may result in write errors (not enough HDD/SSD speed for recording).

If external storage is required when using the Blackjack® Cube™, the Blackjack® NAS desktop may be used. There is a maximum limit of up to twenty-four (24) 2.1MP/1080p IP cameras and a max of 120Mbps throughput supported. When using the Blackjack® rack mount models (Blackjack® P-Rack™, Blackjack® E-Rack™ or Blackjack® X-Rack™), consider using the Blackjack® NAS DW-BJ8NASxTR or DW-BJ16NASxTR rack mount models.

### DW-BJNASxT and DW-BJNASxTR Compatible devices:

- Blackjack® Bolt™ DW-BJBOLTxT-LX – all models
- Blackjack® Mini™ DW-BJMINIxT – all models
- Blackjack® Cube™ DW-BJCUBE-LX – all models
- Blackjack® Cube-DL™ DW-BJCUBE-DL – all models
- MEGApix® CaaS™ IP cameras – all models
