Re: VMAX IP Camera Compatibility List

Digital Watchdog's VMAX IP Network Video Recorder is designed specifically to operate with Digital Watchdog's MEGApix cameras. Most of the MEGApix cameras can be connected directly to the NVR's local PoE switch, receiving power and transmitting data to the NVR directly. The list below applies to the 4, 8 and 16 channel VMAXIP models. Some cameras require higher voltage (mainly for IR purposes), and may require an additional PoE injector.

Please refer to the list below for additional details:

- › DWC-MB421TIR, DWC-MB421TIR650 – External PoE Injector required.
- › DWC-MB721M4TIR, DWC-MB721M8TIR
- › DWC-MB950TIR – Integration coming soon
- › DWC-MC421D
- › DWC-MD421D, DWC-MD421DB
- › DWC-MD421TIR, DWC-MD421TIR
- › DWC-MF10M28T, DWC-MF10M36TIR, DWC-MF10M8TIR
- › DWC-MF21M28T, DWC-MF21M4TIR, DWC-MF21M8TIR
- › DWC-MPA20M
- › DWC-MPTZ5X, DWC-MPTZ5XFM
- › DWC-MPTZ20X, DWC-MPTZ20XFM – External PoE Injector required.
- › DWC-MV421D, DWC-MV421DB
- › DWC-MV421TIR, DWC-MV421TIR
- › DWC-MV950TIR – Integration coming soon
- › DWC-PB421M4TIR, DWC-PV421M4T – Integration coming soon (Live and Continuous recording available).
