

## Blackjack® MINI™

Make big things happen — record locally, monitor centrally and manage remotely.™ The Blackjack® MINI™ makes big things happen! The server allows you to record locally, combine into a centralized monitoring system via DW Spectrum® IPVMS and managed remotely, from anywhere, any time. The server can record and manage single-sensor IP cameras of any resolution, with maximum of 60 Mbps throughput (equivalent to 12 2.1MP/1080p cameras at 30fps). Manage remotely with DW Spectrum® Client or the DW Spectrum Mobile® app. The Blackjack® MINI™ is an ideal solution for any small scale application or for remote locations with a small number of cameras but no need for local monitoring. The server has 5 years limited warranty, is ONVIF conformant and is available with 2-20TB HDD.

- Supports ONVIF conformant IP cameras
- Storage options 2-20TB internal storage
- Data redundancy RAID1 (DW-BJMINxTR models only)
- Record and manage single- and multi-sensor IP cameras, up to maximum 60 Mbps throughput (equivalent to 12, 2.1MP/1080p cameras at 30fps)
- Single gigabit network port
- Embedded Linux<sup>®</sup> OS
- Hosting DW Spectrum<sup>®</sup> IPVMS server for recording
- One-time recording license charge, fully transferable between cameras and encoders
- No annual maintenance fees
- Simple enterprise scalability
- Auto device discovery
- Dual stream recording
- 5 Years limited warranty
